Description / Action:

- tolerance changes to D3499 to prevent assembly problems
- DEO-D3391-H-1 removed LPS-3, this has already been implemented in production
- DSI 9482 should be added to D412-742-011/-013/-041/-042 kits in stock → w/o 56029
- DSI 9475 was created for a customer (was send to customer by Dan), should only be sent to customers on as-needed basis
- D2500 Rev. H adds ASTM spec
- Keep CHG numbers the same, considering that skids are already being made and shipped w/o LPS-3
